About the group

Chakravarthi group started its roots in 1963, since then it has diversified into knitting division, knit garments (domestic and export), woven garments, construction and many more fields

Knit Garment Division

Introduction

Our knit garment division started in 1994 we started out with manufacturing of t-shirts of man made fibre and supplied directly to schools all over southindia.

we are the market leader in a field we currently serving over thousand schools in Tamilnadu, Kerala and Karnataka. we offer the best quality and service for our customers that is available.

Product

We specialise in man made fibre with that we use cotton yarn to make a fabric that has a cotton inside and synthetic and on the outside this helps us to keep the cost in check and give the best quality.

We purchase our only raw material synthetic yarn from reputed companies after that everything is done in house from knitting to packing. This ensures we have the best quality product in our customer hands.

Factory Setup

Our factory currently employes over 200 people in our factories. We have the state of the machinery that consumes less power and more environment friendly. we have installed capacity for producing around 9000 pieces per day.

Our Factory Floor

Machinery

Below we have given the machines that we are using currently in factories all these machines are of the latest technology and more efficient in power saving and offer better ergonomics to help the production and finish the orders in time and achieve a better quality product.

Brands in retail market

we have our presence in retail market with brands mentioned earlier we supply through our wholesale dealers and we have all our brands present in online market places like amazon,flipkart etc,

we manufacture from kids to mens and womens garments that are suitable for lounge wear casual wear and track wear. we take utmost care and quality in each of products that will have the highest quality standards

Woven Garments

Woven Garments

We are also manufacturing ready-made woven garments that will cater to the need of uniforms for schools and corporates. This helps the kids to get their uniform as pre stitched ready to wear garment rather than getting the fabric and stitching it. As for the corporates we will have their uniforms in stock so when a new employee joins we will ship direct to employee within 2 days this help the employee and employee to have a hassle free work place.

For the schools we have selected designs that will be ready for immediate delivery. These will reduce the time delay in supplying uniform to the kids and reduce the hassles for the schools

Our Experience

we have vast experience in supplying corporates and schools over the last 25 years that will help to fullfill and understand the customer needs and deliver a quality product at an affordable price

Also we have an able and experienced marketing team of 30 people that contains experience people they can understand the customers exact needs and help them get the right product

Our Speciality

We have tied up with our industry leading quality manufacturers of shirting and suiting fabrics having factories in Maharashtra and Rajasthan that will process the woven fabrics that will be controlled by equality theme to get the best possible quality fabric within ship them to our factories in various parts of Tamilnadu to carry out the order that you meet the specific requirements of our customers we have around 200 designs and around 2000 combination of colours to get the desired uniform for our customers.

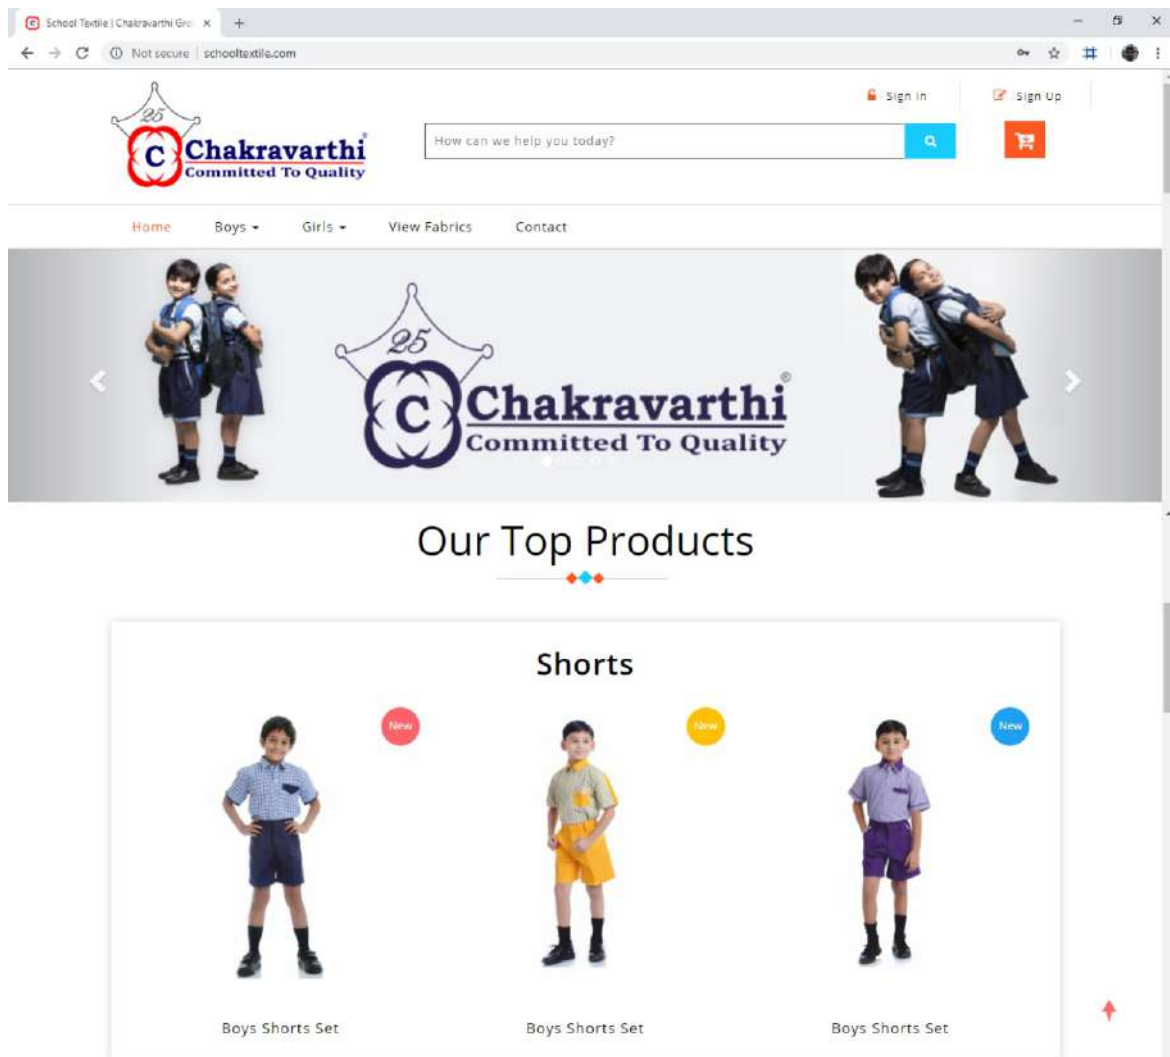

we have gained the industry experience with 25 years of experience for supply of schools around this factors we can supply the products at a very competitive price that will also ensure 15 to 20 percent savings for our end customers
